# Why we recommend managed WordPress hosting

The price you pay for managed hosting is 100% worth it compared to bottom-of-the-barrel shared hosting solutions! Here are six reasons why managed hosting with WPhost is the way to go:

EVERYTHING IS TAKEN CARE OF FOR YOU

WordPress updates, security, backups, migrations, caching, you name it – we'll handle it. In the long run, this absolutely winds up saving you time, money, IT resources, and so much more.

YOUR SITE GETS ITS OWN DEDICATED RESOURCES

With WPhost's platform, you don't share resources like you do on shared hosting. This means no one's site will interfere with your performance or security; it's safe and sound!

MANAGED HOSTING IS REALLY FAST

At WPhost, we tune our servers for optimal WordPress performance and configure all the caching, so you don't have to set up caching plugins or worry about your site speed.

TOP-NOTCH SECURITY

WPhost is on top of the latest security vulnerabilities and will proactively block threats. We work hard to make sure your sites are safe and secure. And if your site is compromised, we'll fix it for free.

WE'VE GOT YOUR BACK

We're local. With WPhost, you have the best WordPress support at your disposal. Our exclusive focus on WordPress means our team of experts always have your back!

FREE SSL CERTIFICATES COME STANDARD

Get the green padlock and world-class WordPress hosting and encryption all under one roof. A free SSL Certificate comes standard with every plan. Give your site a boost in SEO & security!

So, in a nutshell, all of this means you can stop worrying about the servers and the hosting and the hackers and your site performance and instead, spend that time running your business.
